

Daring, wild and round – Mitzi Blue is setting the trend.

Josef Zotter, the innovative Austrian bean to bar chocolate maker, is once again set to stir the chocolate world with his daring, wild & “round” creations. In spite of receiving an award from the Academy of Chocolate, Josef has gone back to the kitchen and completely re-invented the whole Mitzi Blue range.

Mitzi Blue is a range of 29 exciting circular chocolates with a daring twist. The captivating titles, cool designs and the innovative Mitzi-Mix set this chocolate apart from anything you have tasted before.

Each Mitzi Blue has a contrasting Mini Mitzi in the centre; a round chocolate with a surprise in the middle. Here are just a few from the range of 29 standard & seasonal varieties:

Jazz & Blues.

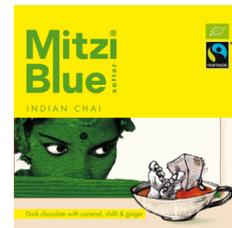

Dark chocolate 80% & 90% Milk-free, vegan

Dark, strong and wild. Racy dark chocolate with 80% cocoa content and caramelised chilli cocoa nibs in a jam session with a 90% cocoa Mini Mitzi

Indian Chai.

Dark chocolate with caramel, chilli & ginger

Kick back and relax with the genuine Indian cocoa from Kerala with a cocoa content of 68%. In the centre caramel chocolate gets together with ginger and chilli.

Paparazzi. – For overs 18s only!

Crème chocolate & raspberry nipples

The hottest chocolate of all times: a raspberry chocolate ‘nipple’ decorates a smooth crème de la crème chocolate and is sprinkled with rose petals.

Keith Lowe, the Managing Director of Zotter Chocolate says “We’re really excited about this range. As a bean to bar chocolate maker we are free to create what truly excites us and not just follow the trends set by others. The Mitzi Blue range is visually stunning and the chocolate lives up to the expectations set by the packaging.

Everything that Zotter makes is both Organic & Fairtrade but the company’s innovation doesn’t stop with the chocolate. Each Mitzi Blue is packed in environmentally friendly packaging made from CO2-neutral card and organic plastic, which is 100% biodegradable. Good chocolate doesn’t have to cost the earth!
